

HIGH-LEVEL SPECIALISED APPLICATION SUPPORT SERVICE IN HIGH-PERFORMANCE COMPUTING

MISSION

EPICURE will establish a **four-year operation** of a distributed **European-wide high-performance computing application support service** bringing together Application Support Teams (ASTs) set up in all current and future EuroHPC Hosting Entities, operating its supercomputers.

OBJECTIVES

- Provide **support services** to users that have access to the EuroHPC supercomputers;
- Deliver the **best support solutions** based on all partners' long experience in HPC operations and support;
- Focus on **Level 2 and 3** application support in the area of application porting and optimisation for selected applications/user groups with **short to medium term support** (3-6 months);
- Development of a **European HPC Application Support portal**, acting as a **single point of contact for European HPC users** to retrieve information on the systems offered by the Joint Undertaking.

GENERAL INFORMATION

- Started in **February 2024** and ending in **January 2028**;
- Developed and supported by researchers and specialists from **16 research organisations** — including all current and future EuroHPC Hosting Entities;
- Organisation of architecture specific **trainings, hackathons, webinars** and **workshops** in several EU countries.
