

## HIGH-LEVEL SPECIALISED APPLICATION SUPPORT SERVICE IN HIGH-PERFORMANCE COMPUTING

### DO YOU NEED HELP SCALING YOUR CODE?

EPICURE provides tailored expert support to advance your research.

<h3>Meet our Support Services</h3>	<h4>Code Enabling and Scaling</h4> <p>Enabling and scaling user codes on EuroHPC supercomputers.</p>	<h4>Benchmarking</h4> <p>Benchmarking and evaluating EuroHPC systems performance.</p>
	<h4>Performance Analysis</h4> <p>Analysing the performance of HPC applications.</p>	<h4>Code Refactoring</h4> <p>Restructuring application code to improve maintainability.</p>

### EUROPEAN HPC APPLICATION SUPPORT PORTAL

A strategic platform designed to support European researchers and facilitate access to EPICURE services and EuroHPC resources.

- Guidance for **accessing EuroHPC JU systems** and navigating application procedures;
- Simplified form to **request EPICURE's technical support** via the portal;
- **Training materials for HPC users**, including workshops, webinar and hackathon materials, recordings and other supporting materials;
- **Technical knowledge base** with best practice guidelines and how-to guides to improve EuroHPC application performance;
- **Git repository** with code examples, tools, and projects related to EuroHPC systems.
